

Description:

PEPSICO HEALTH & NUTRITION SCIENCE INTERN

ABOUT PEPSICO:

Nationwide Opportunities- Please Read:

Just because this role looks like it's located in Purchase, NY doesn't mean it is! At PepsiCo we place R&D Interns/ Full- Time hires primarily in the three headquarter locations: Plano, TX; Chicago/Barrington, IL; Purchase/Valhalla, NY. Location preferences will be discussed in the interview process.

We are PepsiCo:

PepsiCo is a global food and beverage leader operating in more than 200 countries and territories with a product portfolio that includes 22 world-famous, billion-dollar brands. From Gatorade to Quaker, LIFEWTR to Lay's, we make hundreds of enjoyable foods and beverages that are loved throughout the world.

Guiding PepsiCo is our vision to be the global leader in convenient foods and beverages by Winning with Purpose. "Winning with Purpose" reflects our ambition to win sustainably in the marketplace and embed purpose into all aspects of the business.

Our employees drive our culture. No two days are the same; we're dynamic and full of passionate teams embracing new ideas through our collaborative spirit. At PepsiCo, what makes you unique, makes us better!

Nutrition Intern Role:

Support the development and implementation of nutrition strategies for the global food and beverage business. Support the transformation of the product portfolio to deliver against the R&D nutrition agenda and health & wellness business initiatives.

Contribute to global nutrition initiatives, which may include, nutrition communication, scientific reviews of nutrition opportunities, translation of science to product opportunities, developing programs to support internal and external nutrition education.

Accountabilities and Measurements:

- Plan and coordinate individual activities that contribute to project results.
- Coordinate and perform independent and team project work to meet objectives.
- Presentation of project results and findings upon completion of internship.

Knowledge and Experience:

- Knowledge in nutrition science or public health.
- Excellent communications skills (both written / verbal) to request, provide, share and explain information.
- Capable of working on individual or team settings.
- Seeking highly energetic, creative, and motivated individuals.

Example Projects:

1. Development of external communication strategies and material to educate consumers and health

professionals about the benefits of orange juice

2. Review of the scientific literature around a specific nutrition topic and identification of ways to leverage the science for PepsiCo

3. Analysis of global competitive products for assessment of claims, messaging, nutrient profile, and communications strategies

Goal of Program:

Opportunity to gain cross-functional knowledge of a World Class Beverage/Food company. Strengthen skills in the critical assessment and translation of nutrition science to products and communications.

Location(s):

Purchase NY or Chicago IL

Completed Degree(s):

Bachelor's, Master's (Optional), RD (Optional)

Major/Concentration:

Nutritional Sciences, Health Policy or closely related field.

Student Status:

Current graduate student enrolled in a Nutrition Science PhD (preferred) or Master's Program
