

Do you want to rethink your impact, and are you passionate about Food and Health? Then you might be our new Nutrition Specialist.

What if you could work for a cause, not just a company?

Novozymes is the global market leader in biological solutions. We help build better lives. Together with our customers, partners and the global community, we use our innovative thinking and passion for science to boost industries and make everyday products more sustainable for the good of the planet. As the world's leading provider of industrial enzymes and microorganisms, our bio-innovation enables higher agricultural yields, healthy food consumption, low-temperature washing, energy-efficient production, renewable fuel and many, many other biological solutions that the world can benefit from today and in the future. We call it *Rethink Tomorrow*.

Join us as our new Nutrition Specialist

Do you want your impact to be greater, better, wider? As our Nutrition Specialist, you will advance the field of nutrition not only within Novozymes Food & Health, but also further the cause for healthier, more sustainable living for a growing populace.

Welcome to Food & Health Customer Co-Creation

In our ambitious new Food & Health Customer Co-Creation Center, we help our customers develop food and beverage products and dietary supplements that appeal to modern consumers. We are a dynamic and collaborative organization that works Agile and with consumer product prototyping to design and construct new concepts with customers.

In this role you'll make an impact by:

- Driving nutritional insights and messaging related to the benefits delivered by our biological solutions, together with our consumer insight and regulatory teams
- Lending expert perspectives to customer meetings to inspire and realize nutritional benefits and claims, together with customer product developers, marketing and other functions
- Translating Nutrition Science insights into easy-to-understand communications
- Being proactive, anticipating customers' nutrition-based questions or requests and being knowledgeable on their consumer products so you can make impactful proposals
- Shaping Novozymes' innovations and solutions positioning regarding nutritional benefits and claims, together with our regulatory, consumer insight and applications research teams
- Building a network in nutrition science, and keeping your finger on the pulse of developments and trends

To succeed you must hold:

- Essential: An M.Sc. or Ph.D. within nutrition or related field, and possess a minimum of 8 years relevant post-qualification experience, including in the Food & Health industry
- Desired: Registered nutritionist or registered dietician
- A mindset where:
 - Compelling communication (written and verbal) brings you joy, and you tap into it to make meaningful and long-term relationships
 - Creating something new, sometimes collectively or sometimes independently, gives you a buzz
 - Agile ways of working feels natural
 - You enjoy the variety of collaborating with diverse stakeholders day-to-day and can make each one feel special and connected to Novozymes Food & Health
 - The chance to reimagine the future of nutrition and healthy foods makes you jump out of bed in the morning

This position includes customer-facing responsibilities and best fits an inspiring and service-oriented person with a lets-do-it! attitude – whether you're driving, navigating or contributing from the backseat.

Location:

This job will be located in Raleigh-Durham, NC

Are you passionate about making a sustainable impact, and do you see yourself in this position? Then unlock your passion and apply today!

Application deadline: April 1, but please apply as soon as possible as we will call for interviews on an ongoing basis. Please attach your diploma(s), recommendations and other relevant documents when you apply for the job.

Novozymes is committed to creating a diverse environment and is proud to be an equal opportunity and affirmative action employer. All employment decisions are based on business needs without regard to race, color, ethnicity, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, age, disability or veteran status.
