

Medical Assistant

Job Description:

An independent medical practice blending location-based and telehealth services across the Triangle is in need of a Medical Assistant with an interest in Diabetes, Nutrition and Obesity Medicine.

As healthcare continues to evolve, new clinical care models emphasizing disease prevention, cost-effective quality, and proven clinical outcomes are moving to the forefront with a focus on value-based healthcare. LifeStyle Medical Centers (LMC) is one such model, emphasizing a team-based approach to the prevention and treatment of chronic diseases such as hypertension, diabetes, obesity, and hyperlipidemia. We strive to utilize technology and carefully monitored outcomes to provide individualized care to our patients.
