

## Clinical Research Assistant Job Description

We are thrilled to share that the **CREATE (Collaborative Research to Facilitate Equity, Action, Trust, and Engagement) Team** currently has two openings for Clinical Research Assistants, one full-time and the other part-time. The CREATE Team is dedicated to reducing health disparities impacting members of historically marginalized and minoritized communities and advancing health equity research and are seeking likeminded professionals to join our team.

**Location:** Winston-Salem, NC or Charlotte, NC, with travel between sites

As a Clinical Research Assistant, you will play an important role on the team.

### Responsibilities:

- Assist with the coordination and implementation of research studies.
- Recruit and screen participants according to study protocols.
- Collect and manage data with strict attention to detail and confidentiality.
- Communicate effectively with study participants, healthcare professionals, and research team members.
- Ensure compliance with regulatory requirements and ethical standards.

### Qualifications:

- Bachelor's degree in a relevant field (e.g., biology, psychology, public health).
- Previous experience in clinical, social, behavioral, or community-based research or healthcare settings is preferred but not required.
- Strong organizational skills and the ability to multitask effectively.
- Excellent communication and interpersonal skills.

### Why Join Us?

- Opportunity to work with a dynamic and collaborative team of researchers and community partners.
- Gain valuable experience in clinical research and contribute to meaningful projects that have a real-world impact.
- Professional development opportunities and mentorship to support your career growth and aspirations.

If you are passionate about community-based research and eager to make a difference in the field of public health and health equity, we encourage you to apply for this position. To submit your application, please send your CV/resume and a cover letter (optional) to [create@wakehealth.edu](mailto:create@wakehealth.edu).
